

BAEST spiller hårdtslående dødsmetal på thrashguitarer, lyden kommer fra de legendariske HM-2 pedaler og inspirationen findes hos den svenske storhed fra Entombed og Bloodbath. BAEST er kendte for den solide vindmølleteknik, det onde og dybeste growl og er uden tvivl Danmarks nye metalhåb. BAEST er en pakke med det hele – solidt, velanmeldt liveshow, original og skarp lyd og et seriøst og konsistent marketingsmaskineri, som hver dag hiver flere fans til. BAEST er det originale, unge og fremadstormende metalband, som sætter dødsmetal tilbage på dagsordenen.
