

BAEST plays hard hitting death metal on thrash guitars, influenced by bands with the infamous 'buzzsaw' guitar tone played on the legendary BOSS HM-2 pedal, known from Bloodbath and Entombed. BAEST is a death metal band with edge consisting of an awesome live act well known for its windmill headbanging skills and charismatic stage presence and an original sound that liberates the band from the endless fields of modern death metal. This is a vicious and violent monster that will grow into a global beast.

- Nominated 'Best Danish Upcoming Band' and 'Best Danish Band' at the High Voltage Rock Awards 2017.
- Won the 2017 'Upcoming Band of the Year'-prize by HEAVY-METAL.DK
